

## MM59HOME AGILE MODULATOR

Get satellite television  
in **EVERY** room in the house

Applications are for residential homes where video signals from satellite, security camera, vcr or video disc are distributed throughout the house. The MM59HOME is a non-adjacent frequency agile modulator, where channels are spaced even or uneven in a system line up. The modulator is fully digitally controlled and crystal referenced for high frequency stability. Channel selection is by convenient front panel button. This series is manufactured in NTSC and PAL standards.
